Hougkong, November 16, 1909. 1424 THE KOWLOON SHOOTING

AFFAIR.

Quinn Discharged.

The case in which George Quinn, of 3, Rose Terrace, Kowloon, was charged with shooting his, wife with intent to murder was again called on at the Magistracy this morning, before Mr E R. Hallifax. Mr J. H. Gardiner defended.

Dr Moore gave evidence that on the morning following the affair he extracted the bullet from Mrs Quinn's back. When the revolver was fired it must have been from behind

Asked by His Worship if it were possible. from the direction of the shot, for Mrs Quinn to have pulled the trigger of the revolver herself, witness stated that it was hard to say, though it was just possible. But you think there would have been more powder marks on the dress if the revolver was only held at arm's length?—

Yes, and Ishould have expected the clothes to have been slightly burnt.

Bir Gardiner—Did birs Quinn make any

statement as to whether the thing was accidental or intentional ?-She said it was an accident His Worship-When?-Two days after-

In answer to a question !- Yes. Inspector Langley asked the doctor this statement was made after she had been seen by her relatives, and he replied

in the allirmative. Armourer-Sergt. Avenall was called to give expert evidence as to the probable distance at which the shot was fired. After examining the clothes he stated that the shortest distance from which the shot could have been fired would be six feet at least. His Worship - Could it possibly have been fired at arm's length? - No. impossible.

Mr Gardiner - You are judging from

what is on the dress now ?- Yes. I suppose by the time the dress had been handled three days or even a few hours after the shot was fired the powder marks would come off?-A certain amount of

So you could not definitely judge the distance unless you saw the marks immediately after?- Not exact distance, but 'I could judge to a certain extent. Mr Gardiner mentioned that the room in which the affair took place was only eight

Replying to his Worship, witness said hat looking at the dress now he could say that the very shortest range would be six feet. Had it been shorter the powder marks would have penetrated the dress much deeper and could not have been rabbed off to any great extent.

This concluded the case for the pro-Mr Gardiner-Does your Worship wish to hear mo? His Worship - No, I don't think so Defendant will be discharged.

We notice that the Pelcing Daily News declares that China is quite propored to abolish lekin, provided that she gets from the Powers a quid pro quo. "It is indeed probable," says our semi-official coutemporary, "that the whole question will be settled in the next fe . months." We onl hope that it will, for it will immeasureably loon rallway if lakin is adolished.

CANTEN : OTES.

(From Our Vien Correspondent.) CANTON, MAY 16.

By order of the Vicerox two notorious criminala were taken from the Nam Ho Gaol to the Execution Ground and there behended on Friday, One of them was a robber who, had, fled to Hongkorg, but being arrested there, was, after extradition proceedings, handed over to the Chinese

A GREAT ROBBERY." A great robbery has been committed in the chief city of the Liu Chow Prefecture In that town is a large shop kept by one of the leading merchants of the province and it was well stocked with many, valuable articles. One day hat week it was attacked in broad daylight by a number of robbers who succeeded in overpowering all resistance and who went off with plund r to the value of several thousands, of dollars. No arrests have been m de and the owner has informed the Canton Chamber of Cor merce, the Self-Government Association and the Press Association and has asked them to stir up the Government, to a sonse of its responsibilities in protecting the property of citizens.

INSULTING WOMEN. A merchant named Mr Chang has opened large factory for the weaving of croth near the Choi Hung Bridge in the western part of the City. His object is to assist in the development of native industries. In this factory a large number of women and girls are employed and these have been much annoyed by the conduct of certain then who daily gather near the entrance of the factory to pass insulting remarks on them as they go to work. .The owner of the factory has informed the Nam Hoi Magistrate of the affair and has asked him that these female workers be protected from such conduct and to give orders to the police to arrest any person found making such remarks. This kind of conduct is by no means rare in Canton. It is almost impossible for a girl or young woman to walk through the streets without being compelled to listen to remarks, often of the most vild nature, passed upon her by wretches calling themselves men, These remarks are not always made by coolies and such like but often by persons who, from their dress one would suppose to belong to the better class. The Chinese here appear to have no idea of protecting their women folk and any chivalrous ideas regarding them are utterly unknown.

THE PLAGUE.

News comes from the Sun Wui district. That Is to Say, by Rita that the plague has broken out in a village called Ho Chaen. It appears that this village contains a large population living in The Adventures of an A.D.C., by overcrowded keases and" in the midst of very unsanitary conditions and the death rate is very high. The Sun Wui Selfgovernment Society have asked the directors of Fong Pin Hospital to send a doctor to the village in order to stop the ravages of the plague.

SCHOOL OF DESTINARY.

During the last few years the services of doctors trained in the Western principles of medicine have become more and more appreciated and very many schools and colleges for the study of medicine have been opened. An American trained dentist has just returned, from California and has opened a school for the training of persons in modern American dentistry. Circulars setting forth the fees and rules of the school have been issued and several students have already joined. The native system of medicine, however, dies a hard death and the bulk of the people still pin their faith to the horrible nostrums and unspeakable compounds of the native medico, and the wayside dentist with his filthy forceps and strings of extracted teeth is likely to be in demand for many a year to come. " POLICE MATTERS.

The new Police Taotai is doing his best to bring the police force into good order and make it a useful body of men. One of Swatow L his latest innovations is the establishment of a Police Gazette which is to be published FONEKIN every ten days and a copy of which is to be put into the hands of every officer. and constable of the force. The Gazette is 612 to be concerned entirely with police affairs, orders, promotions, dismissals and instructions. The Tnotni has also engaged the services of a special photographer to be attached to his yamen to record the fentures of all criminals. This was formerly done by a photographer in the City but it was found that his charges were excessive and so his services have been dispensed with. The Taotai has also been much annoyed by the many charges of immoral conduct brought against the police and (Continued on Paye 3.)

SHANGHAI LADY'S DESPAIR.

RELIEF CAME AT LAST-COMPLETE CURE FOLLOWED THROUGH DR. WILLIAMS PINK PILLS.

THE record of cures wrought by. Dr. 1. Williams' Pink Pills is never complete -overy day brings in fresh lutters from grateful people telling how they have been saved from suffering, and made well and strong, by this medicine with the unique and world-wide reputation. A cure lately investigated, to make certain of the ab solute reliability of the facts stated in one such letter received, is that of Mrs. S. Sofer, residing at 100 Fearon Rad Shanghai, and this lady, who is the wife of a bill-collector in the employ of Messra. E. D. Sassoon & Co., explained her case as follows :-

About a year ago I began to suffer with congested feeling in my chest. coughed a great deal -so much so that my friends used to pity me - and there was | there. such a great pain in my chest that I could hardly get my breath. . The fits of cough-

times to continue for an hour almost wit "I also suffered with Rheumatismsometimes in my legs, sometimes in the body, sometimes in the arms-and this was so bad as to compel me to remain in hed for days at a time, suffering agonies

too great to permit me to rise.
During the whole of last winter I was under medical treatment and taking medicines, but although the doctor did all he Kinds of HARDWOOD, &c. , goods could for me, and was more than kind, I only got bester for a little while, and then got worse again. I had no appetite at all; could take nothing but milk—that was all I lived upon. I used to bring up a lot of phlegm, and was very thin and pale.
"It was at the end of June, 1909, that a Shanghai friend, who had been cured of

Rhoumatism by them himself, recommend-

ed me to try Dr. Williams' Pink Pills

After the first bottle of these Pills I felt better, and continued taking them until my chest became quite strong and the Rheumatism was entirely gone. "The pains to which I was a victim have coased, my appetite is restored. You cer tainly are at liberty to make whatever use

tion of other sufferers." The good rich red blood supplied by Dr. Williams' Pink Pills for Pale People strenghened Mrs. Sofer's lungs, drove out spirit, if it is the right one, chafes against the poisonous acid which was the c use of her Rheumatism, and generally built up ier system - that is the whole secret of her cure. In the same simple way-through the blood -these Pills have cured thousands of cases of Amemia (blood poverty), Nervous Debility. Indigestion, Liver Disorder, Headaches, Back-pains, Malaria, Sciation, Neuralgia, Paralysis, St. Vitus' Dance. Beri-Beri, Eczema and Skin Eruptions, as well as "those periodical ailments which afflick women only. Obtainable medicine vendors everywhere, salso direct from the Dr. Williams' Medicine Co., 84 Szechuen Road, Shanghai. 1 bottle for \$1.20, 6 bottles for \$8, post free.

RORDERY IN THE CITY. A man was passing by the Luk Sin Theatre on Saturday carrying a portmanteau when he was set upon by a num ber of thieves who snatched, away the bag and made off with it. The man raised an alarm and though a constable was standing near and saw the whole occurrence he made no effort to pursue the thieves! or blow his whistle for assistance—he simply stood there as if without sight or hearing. It is no wonder that people accuse the police of being in lengue with thieves when such things happen. The place where this robbery occurred is quite near to No. Police Station but, in spite of its presence thieves and pickpockets are very active.

GENTRY AND ROBBERS. It is a well-known fact that in many of the rural districts the so-called gentry are in league with the bandits who infest these places. These latter give a "portion of theirill-gotten gains to the former who as a return give them their protection when that a desperado named Young had murdered no less than 29 persons. THE MEN OF THE SEA.

Yet for him the sea has a lustre that its

swolfish cruelty never dims.

THE WARFARE OF THE SEA "It is an exacting mistress, but its lovers never realise satiety till there is no escape from the toils. The men of the sea always on the defensive, are engaged in unremitting battle with a fee that has no code of honour, that strikes unawares, that smiles in their face and stabe them in the back. This lifelong warfare so stimulates their resourcefulness that we commonly call the men in Navy 'handy men.' and, ' since the ready hand is but the instrument of the ready brain, it follows that the seaman's intelligence is in no way behind that of the man on shore. Besides the qualifications of foresight and serious. thought, he has another, that of unquestioned independence, to distinguish him from the sheep too often led by agitators. Those, indeed, who have sometimes endeavoured to lead him, purely for his own good, have found him anything but the yielding material on which agitators love to work.

THE OLD ORDER AND THE NEW "That the men of the sea have changed with their ships is inevitable. The men who grease pistons and stoke fires are of modern naval warfare, there is no equivalent

"The rough, intemperate crew, largely composed of Finns and Danes, who man long-distance steam trawlers that bring the halibut of Leeland and the haddock of the Farces to the markets of Hull and Grimsby, are very different from the sober, God-fearing fishermen that sail the Cornish pilchard luggers.

We are sure that many residents in the Colony will have read the Rev. O. B. Hickling's letter, which appeared in the . China Mail on Wednesday evening, with a sense of considerable regret. We should have thought that there would have been ample material in Hongkong and Kowloon for two companies of the Boys' Brigade, but this is a strange community and there is no accounting for its tastes and prejudices. Perhaps the movement would have had a greater chance of success had it been started in the cool weather. At any rate it is to be hoped that the Kowloon Company will meet with success.

KIDNAPPING.

At the Criminal Sessions, this morning, before Mr W. Rees Davies, Acting Chief Justice, a charge of kidnapping was, preferred against Chan Shin.

Prisoner said he did take the boy to sull him but the boy wanted him to do so and wanted 85.

Hon Attorney General said that the only difficulty they would have about that case, especially after what they had heard the prisoner say, in order to find prisoner guilty was that they must find that he made use of some fraud to get the boy into the Colony. He was charged under three counts, onof harbouring after he had got the boy out of the control of his father, another with getting him out of the control of his father and the third of taking him out of the Colony for the purpose of selling him. The boy was in the country at a theatrical performance when prisoner got into communication with him and get him away from his home on the pretence of making him an actor. "I think," added Mr Slade, "that the glamour of the stage siezes upon all boysduring the course of their existence." The Chinese boy, unfortunately for him prisoner who told him he would make him an actor and get him a fine salary. They went on board the actors' boat and needless terrelate he was not made an actor but taken to Canton. Prisoner said he was not fit to be an actor as he had a sorn foot.

Evidence was called. The jury returned a verdict of guilty and His Lordship sentenced prisoner to three years' imprisonment with hard labour. Arising out of the above case two other prisoners were charged with kidnapping.

Mr Murray Stewart's Questions ADSWOTES.

At the meeting of the Elegislative Council this afternoon, the Hon. Mr Murray Stewart asked the following questions of which he had given notice :---

1. Did the Governor of the Colony in this Council, on the 20th of July. 1903, accurately state the intentions of the Government when he said, "As regards the ground in front of the Glub I hope that nothing will ever be built upon it. I propose that that ground shall be made a public garden. My idea is that the ground shall be preserved as an open space entirely and add to the beauty of the place?"

2. Did the Honourable the Director of

Public Works, then, as now, Mr Chatham, at the official ceremony of laying the foundation stone of the new Law Courts on November, 12th, 1903, in the presence of the Governor of the Colony, the Honourable the Colonial Socretary (then Mr. now Sir, Henry May) and many other high Government officials, accurately state the intentions of the Government when he read from a written document these words :- "The area from the North of this lot therefore remains unbuilt upon and an almost unrivalled site for the Courts, having regard to the open spaces which will adjoin them

on three sides, will be thus created !" 3. Did His Excellency the Governor (Sir Frederick Lugard), accurately state the intentions of the Government when on the 28th November, 1909, he said A start is being made on the extended Thus in Ircland Sir William Smith, a friend in this Council in reply to a question us to whether the Government would have the plot cleared and made presentable as soon as it was no longer necessary for the work in connection with the Law Courts and Post Office :- "The present intention of the Government is to clear the plot as soon as it can be dong?

The Hon. Murray Stewart saked the following question in the Legislative Council this afternoon.

In view of the extensive destruction of trees caused by the recent hillside fires in the vicinity of Aberdeen, and the circumstance that many of these segarate conflagrations occurred simultaneously-some on this island, and others on the island. Ap-li-chau-will the Government inform the Council what steps have since been taken to guard against woodland incendia- for rism among the villagers and boatpeople of year. this particular district?

The Hon. Colonial Secretary replied as The fires referred to were caused by

burning of joss papers at the Tsing Ming Festival. The following steps were taken. before and at hime of the fires. Fire barriers were cleared as usual in

About a fortnight before the festival notices in Chinese were posted up in Pokfulam, Aberdeen, Aplichau, Little Hongkong and other villages on the island warning the people to be careful in the burning of joss sticks and paper and the

firing of crackers at the tombs. On the day of the festival, foresters and coolies obtained especially for the perpose were posted at all the cometeries but owing to the dryness of the vegetation on account of the absence of rain, and the very strong wind blowing at the time the men were unable to keep the fires in check. More men were obtained from Pokfulam and Aberdeen and the police at both places rendered valuable assistance.

On Mount Kellett the fire crossed two berriors in succession, the sparks having been carried across by the wind. Superintendent of the Botanical Forestry Department was at Mt. Kallett himself and saw the great difficulty the men had in dealing with the fires on this particular occasion. Precautions similar to the above will be taken in the future.

THE GODOWN THEFT.

(To the Editor, of the 'CHIMA MAIL'.) Could you please say whether the evidence was not sufficient to convict the supposed culprits, as the same does not appear in your report. I cannot form an opinion, but still it is a great pity that there wasn't sufficient proof lead to convict as these thefts have been sofrequent of late and the police can not trace the robbers in many cases reported. Further is not the carrying of goods at'4 o'clock in the morning from any godowus most unusual. I don't think it is ever done here by any merchants. Photographic Experiments -in-Hongkong-

Although the Hongkong Observatory is not so well equipped as it might be to cope with astronomical phenomena, the staff i none the less enthusiastic in this branch of its activities. Accordingly it was only to be expected that some attempts should have been made to-day to photograph Halloy's comet while it was projected upon the solar disc, as it was reckoned to be. this forenoon.

With the object of ascertaining precisely what had been done in this direction, a Assi-tant at the Observatory, who has all

" Several months ago," proceeded Mr Plummer. Professor Pickering of Harrard would be visible upon the sun's face with the appliances at his command. So forced therefore to the conclusion that Halley's comet has no solid nucleus of the latter dimensions. Indeed, it was not expected that it had any substantial nucleus of this size, but it was hoped that the crowd of small bodies of which it was composed would be so dense near the centre that they might, so far as the passage of light was concerned, act as a even this supposition must be given up. and that the particles are so loosely compacted that no-where do they offer any effective opposition to the passage of

MACAO NOTES.

(From Our Own Correspondent.) MACAO, May 17.

What is all this we hear about the remova? We know for a fact that since 27th Apri last not a single chest of raw opium has come over from Hongkong, which means a falling off in the fortnight's turnover of \$136,000. Two dealers have shut down leaving only one concern in the field. For the last two decades importers looked after their own storage. The Chinese Customs station at Malachao supplied them with duty stamps which they had but to apply on the balls in the event of a sale for export. The harbour master was duly notified in such cases and he in turn acquainted the Commissioner of Customs with the name of the exporting vessel and C. W. Alexander (K.) v. G. R. Edwards quantity of the drug. But for no earthly reason the Government has suddenly gone off at a tangent. We are told that the K. McLennan (P.) v. W. Hardwick (T.). authorities now require of the "dealer that the opium intended for export should leave the Government warehouse direct for Malachao under military escort. At this point duty is to be paid and the stamps affixed, the opium to be subsequently bonded in the inner harbour and inhibited from being re-conveyed to Macao for weighing purposes. We fail to grasp the drift of this disastrous whim. In the former conditions the application of the duty stamps in the presence of a harbour office official obviated the possibility of contraband and the Chinese Government did not solved. The figures are for 1908stand to be done out of one lots of its due. RUBBER NOTES.

Mr Carnegie, one of the abrewdest inestors in the world, prophesied ten vents ago that rubber in the future would prove to be the article in which fortunes would be made, as steel had been in the nineteenth contury.

The following rubber crops for April are to hand :- F. M. S. Rubber Co. 29,300 Ibs.;; Kusla Lumpur, 38,600 lbs.; Kroe. wook Java Plantation Ltd., 3,000 lbs.; Amherst Rubber Estates Ltd., 600 lbs. (first shipment).

Exactly how many companies there are at the moment in which rubber figures as a principal attraction no one in Mineinglane or on the Stock Exchange has had time to estimate. The Eubber Share Hand-book of the "Financier" gives a list which "is as complete as any up to the beginning of this mouth. Adding those advertised in The Daily Mad since the first week in April the following figures result :--

Newchwang.

Wo. of Authorized Companies. Captal. Malay Peninsula.......127... £10,183,000 India "12..." 2,160,000 Ceylon (Tea and Rubber) 54... "10,371,000 British North Borneo, Java and Sumatra..... 49 ... 5,200,000 Africa, America, etc., ... 27... Rubber Shares Invest-1,587,000 SHANGHAI ment Co.s 6... Non-sterling Co.s. Caylon, India, Malay, etc. 77... companies issued since

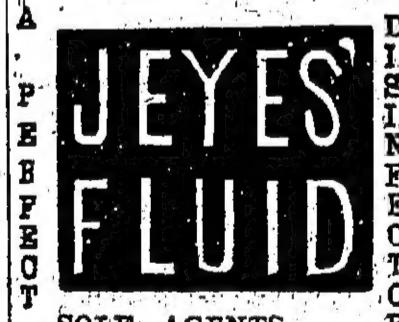

not represent by any means the amount of money invested in rubber. With 2s. shares selling in one instance for 80s, and others showing an advance little less remarkable market is estimated at not less than £100,000,000.

The world's visible supply of rubber at the beginning of this month was 4,690 tons against 5,276 tons at the beginning of April and 5,329 at the beginning of March.

The trees yielding the valuable gutta known by the names of jelutong are in danger of being utterly rooted out in Dutch East Borneo owing to the reckless methods of the pative collector. The Java Bode say: that the officials there are in favour of taking measures at once to stop this ruinous way of collecting the gutta.

Speaking to the London Section of the Society of Chemical Industry on the India, rubber industry Dr. Schidrowitz said it would not be very long before methods of preparation and production generally would be entirely revolutionised and that a few years hence impure and dirty rubber, such as still comes to the market in large quan tifics, would be a thing of the past. It was possible to propare from practically all the main species a rubber of high, quality and purity by appropriate methods. The differences in various rubbers were due to differences in the original latices and in methods of preparation, and the author was of opinion that the latter were more important than the former. The basic idea underlying the plantation industry was that of producing under skilled white superintendence the maximum amount of high class rubber on a limited area in a favourable and accessible region. The advantages in this regard were obvious, but on the other hand the advantages of wild rubber were that trees cost nothing to bring into bearing and that they were less liable to disease and pests.

Hongkong Tides, The tide table given below has been

sompiled at the Nautical Almanac Office in London from the result, of the analysis of observations taken by means of an au tomatic tide-recording muchine in the Wa ter Police Basin at Telm Sha Teni during the years 1887-8-9. The zero of the table corresponds with

the zero of the soundings in the Admiralty Charts which has been found to be 4 feet 3 inches below mean sea level. To obtain the depth of water on the tide gange at the Victoria Naval Yard add 8 Shaughai, Japan, Honolule, hau Fran- feet 4 inches, and on the gauge at Lamont | In Manila-Dock, Aberdeen, add 10 feet 6 inches to the beight given in the table.
